QUICKLY TRACK DOWN MORE LEADS

Advanced Search with Trusted Results: Quickly find information on people, vehicles and phone numbers with 99.99% accuracy so that raw, mass information can become the intelligence you need to fuel your investigations. With CommandCentral Investigate, users can also search businesses and virtual identities.

Link Analysis: Identify non-obvious connections between entities to develop a comprehensive understanding of them. For deeper insights into complex relationships, CommandCentral Investigate integrates public records directly into the link analysis tool.

Accurint® for Law Enforcement: CommandCentral Investigate users receive an enterprise-wide license to Accurint for Law Enforcement, providing more detailed public record searches for your entire agency.

EASILY VISUALIZE CRIME TRENDS

Robust Analytic Visualizations: Intuitively present data across dashboards with various graphical widgets and maps to help users quickly and easily interpret vast amounts of data. Explore incidents directly within a dashboard without switching applications to see the details of the underlying crime.

Advanced Filtering and Reporting: Simple, yet extensive controls for defining data parameters allow your users to hone in on the data they want to examine.

Public Safety Data Exchange (PSDX): Access 816+ million records from agencies across the country to help users build a complete picture of individuals, locations and incidents.

IMPROVE DATA SHARING AND COLLABORATION

Automated Reporting: Quickly create print-ready reports of crime and entities. Users can easily schedule the delivery of reports to any stakeholder. They can also be downloaded in a wide variety of formats.

Easy Dashboard Sharing: Effortlessly share and communicate dashboards between users to ensure everyone has the same insights to take action.

Equal Access to Investigative Data: With no complex provisioning or permissions to manager, all users have equal access to underlying data.
